SUPPLEMENTAL INFORMATION DISCLOSURE
STATEMENT PURSUANT TO 37 C.F.R. § 1.97

Mail Stop Amendment
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Commissioner:

Pursuant to 37 C.F.R. § 1.97, Applicants file the information submitted herewith and listed on Form PTO-1449 in connection with the above-identified application.

I hereby certify each item of information contained in this Supplemental Information Disclosure Statement was cited in a communication from the European Patent Office in a counterpart EPO application not more than three months prior to the filing of this Statement. Accordingly, no fees are due pursuant to 37 C.F.R. §1.97; however, any fees associated with this Communication may be charged to our Deposit Account No. 23-0280. A duplicate copy of this paper is enclosed for that purpose.

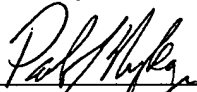

The references listed on the accompanying Form PTO-1449 were cited by the European Patent Office in a Communication from the EPO Examiner in connection with a PCT application that claims priority to the above-identified application. A copy of the Communication bearing the date of mailing of October 27, 2005 is submitted herewith along with Form PTO-1449 and

copies of the non-U.S. references listed thereon. The references listed on the accompanying Form PTO-1449 are those not previously submitted in an Information Disclosure Statement or cited by the Examiner in the present application. Applicants do not possess a translation of the foreign language reference listed that is not in the English language. Applicants are providing all of the references because they have been cited in a communication from a foreign patent office in connection with a corresponding application as indicated above. As such, this leads Applicants to believe that said references could be material to patentability, although Applicants are not certain that said references are in fact material.

The Examiner is requested to consider carefully the complete text of the enclosed references in connection with the examination of this application. It is requested that the listed references be made of record and included in the "References Cited" portion of any patent issuing from this application.

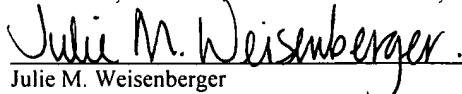

Respectfully submitted,

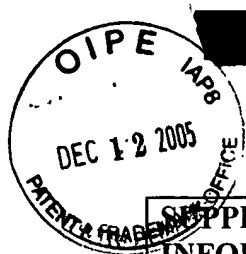

Date: December 8, 2005
